5601 Electron Drive
Anchorage, Alaska
SUBJECT: *RFP 23-02
Technical Field Advisor for Cooper Lake Unit 2 Runner Replacement
Questions and Answers*

This document form is a part of the RFP Documents.

Acknowledge receipt of this document in the space provided below and include the document with your RFP submittals. Failure to do so may subject the Proposer to disqualification.

This document consists of two (2) pages.

Q1. Understanding that the present Unit 2 Cooper Lake TFA Solicitation does not request inclusion of the turbine rehabilitation work scope, would it be beneficial for us to include that work scope anyway with its Unit 2 TFA proposal? If so, would you provide any clarifications on the Unit 2 turbine rehabilitation work scope that might be different from what was offered for Unit 1?

A1. It would be beneficial for all potential contractors to include turbine rehabilitation in the work scope. The scope of the work would be a general refurbishment of the turbine.

Q2. Should we not consider any of the Unit 2 turbine rehabilitation work scope at this time, and only propose work scope for the Unit 2 TFA per the 23-02 solicitation?

A2. Please consider Unit 2 turbine rehabilitation in the work scope.
